

Kindergarten

Kindergarten at CLA is focused on growing academically, socially, and spiritually in a grace-filled and fun environment.

Bible & Character– The students are taught beginning Old Testament stories and truths, as well as important character traits such as honesty, love, and thankfulness.

Reading– Using Abeka Phonics program, students grow from simply identifying letters and sounds to reading short and long vowel words and sentences with fluency and expression.

Writing– Students will master letter formation and emergent writing skills.

Math– Kindergarten students learn foundational concepts of counting, number sense to 100, shapes, ideas of greater/less, and simple adding and subtraction.

Science & Social Studies– Unit studies are used as the basis of our science and social studies learning. In the fall, we learn about senses, nocturnal animals, the first Thanksgiving, and Christmas in other countries. We visit the Tallahassee Junior Museum to give up close experience with the animals we've studied. In the spring, we cover basic health, safety, and manners. We finish the year with a unit to ocean animals and also bees, including trips to the Gulf Specimen Lab and a local bee hive.

"I appeal to you there, brothers, by the mercies of God, to present your bodies as a living sacrifice, holy and acceptable to God, which is your spiritual act of worship. Do not be conformed to this world, but be transformed by the renewal of your mind, that by testing you may discern what is the will of God, what is good and acceptable and perfect."

Cindy Greaves

Mrs. Greaves has been a teacher at CLA since 2014. She holds a Bachelors of Science from Toccoa Falls College, with a double major in Early Childhood Education and Bible. She feels blessed to be able to teach at CLA because of the Christ centered atmosphere and the wonderful focus on addressing heart issues along with academics.
